Project Summary

This invoice covers a fully custom clothing e-commerce platform developed for Tokyo Fashion using Next.js, Supabase, Cloudinary, and Razorpay.

The platform includes customer authentication, cart and wishlist system, order management, courier dispatch tracking, stock management, advanced admin dashboard, category/subcategory management, variant system, and deployment support.

Subscription Plan Details

The complete website valuation is **INR 96,000**.

The client has selected the subscription-based model instead of full ownership purchase.

Monthly subscription pricing:

$$96,000 \times 2.75\% = 2,640$$

Therefore, the monthly subscription amount is:

INR 2,640 per month

Billing Summary

Service	Amount
Total Website Valuation	INR 96,000
Monthly Subscription Fee	INR 2,640 / month
Current Live Website	https://tokyofashion.syp3.com/
Hosting Plan	Free Vercel deployment initially
Future Infrastructure Scaling	Charged according to traffic usage

Feature & Development Breakdown

Feature	Value (INR)
• Custom logo and splash screen	4,000
• Google login, authentication, customer dashboard, profile, wishlist, cart, and order management system	25,000
• Razorpay online payment gateway integration	4,000
• Admin dashboard, secure admin access flow, and analytics management	10,000
• Category and subcategory management with product creation, update, delete, variant management, and stock control system	30,000

• Courier dispatch workflow, parcel photo upload, tracking ID, and Delhivery redirect integration	5,000
• Cloudinary image handling, Supabase API integration, testing, deployment, and optimization	8,000
Total Website Value	96,000

Terms & Conditions

1. The client has selected the **subscription-based plan** instead of complete ownership purchase.
2. The client will pay **2.75% of the website valuation every month**.
3. The first 30 days include free minor modifications and bug fixes.
4. Additional features, redesigns, integrations, or major changes requested in future will be charged separately according to scope.
5. If the client does not purchase a custom domain, the website may run on the SYP3 subdomain system such as `xyz.syp3.com`.
6. If the client does not purchase separate hosting infrastructure, the website will be deployed using free Vercel hosting by default. In future, if website traffic or resource usage increases significantly, additional server or infrastructure charges may apply accordingly.
7. Subscription service can be discontinued by the client at any time.
8. If the client later wants complete ownership/source ownership of the platform, a separate negotiated amount will be charged.

Important Refund Clause: If complete ownership is purchased and refund is requested within 30 days, up to **95% refund** may be considered after deductions.
